

The Strength of Many. The Power of One.

ONE COOPER

The logo for COOPER, featuring the word "COOPER" in a bold, black, sans-serif font. Above the letter "O" is a red parallelogram shape.

ONE COOPER

Cooper Industries is a premier global manufacturing company with seven operating divisions and thousands of well-known products that are used around the world every day. Cooper believes that you can't have a great company without great products. In order to provide its customers with the best possible value, Cooper is dedicated to building quality electrical products and solutions with global standards and a constant focus on innovation. The Company's high-quality products have earned leadership positions in their respective markets and that leadership is sustained through unparalleled sales support and customer service.

MARKET APPLICATIONS

INDUSTRIAL

Customers of all types and sizes specify Cooper products to illuminate manufacturing plants, protect machinery from current overloads, distribute electricity to where it is needed and to protect wiring and equipment in hazardous environments.

Cooper B-Line
Cooper B-Line provides a wide range of mechanical and electrical products for industrial applications, ranging from cable tray and bolted framing to industrial enclosures and wireway.

Cooper Lighting
Energy-saving industrial lighting from Cooper Lighting provides illumination to maximize productivity and visual comfort in industrial applications.

Cooper Wiring Devices
Arrow Hart's Hart-Lock Devices provide superior design for long-lasting performance in the most abusive industrial applications.

Cooper Power Systems
Cooper Power Systems Switchgear is a safe, reliable, and environmentally preferred approach to switching and protection requirements.

Cooper Crouse-Hinds
Products from Cooper Crouse-Hinds protect personnel and electrical systems in harsh industrial environments.

Cooper Safety
Cooper Safety manufactures a wide range of fire detection and security systems, industrial mains and emergency lighting.

Cooper Bussmann
Low-Peak current-limiting fuses now offer easyID technology to reduce downtime and maintenance costs.

COMMERCIAL

Cooper's commercial-grade electrical products are used in new construction, replacement and retrofit applications.

Cooper Lighting
Glare-free fluorescent linear lighting from Cooper Lighting provides added protection from eyestrain in computer-intensive environments such as offices.

Cooper Wiring Devices
Arrow Hart's ArrowLink Modular Wiring Device product line significantly reduces installation time and provides consistent reliable connections.

Cooper Crouse-Hinds
Electrical products for commercial construction such as Space-Saver EMT connectors from Cooper Crouse-Hinds offer labor-saving features that make installation fast and easy.

Cooper Safety
In-Building Mass Notification Systems are installed in buildings or structures for the purpose of notifying and instructing occupants of an emergency.

Cooper B-Line
Cooper B-Line provides a wide offering of electrical and mechanical supports, as well as wiring and communication systems for commercial applications including HVAC, plumbing, seismic, and electrical installations. Products range from electrical brackets and pre-fab Total Ruff-IN to pipe hangers, electronic cabinets and more.

Cooper Power Systems
Envirotran Indoor Powercenter transformers use Envirotemp FR3 Fluid, providing improved performance, environmental benefits and extended life.

Cooper Bussmann
The new Quik-Spec Coordination Panelboard (QSCP) helps meet the selective coordination requirements of the NEC® with a fully fused solution.

MARKET APPLICATIONS

RESIDENTIAL

Cooper's electrical products are designed into new homes and widely used in renovation of existing residences.

Cooper Crouse-Hinds
Outlet boxes such as nonmetallic Speed-Mount switchboxes from Cooper Crouse-Hinds are designed for ease of installation in residential applications.

Cooper B-Line
Spring Steel Fasteners, box supports and meter sockets from Cooper B-Line are used frequently in multi-dwelling residential construction.

Cooper Power Systems
ExpressStat utility-controlled smart-services thermostat for cost-effective mass-market active control application.

Cooper Wiring Devices
CORE Controls seamlessly creates ambiance and reduces energy consumption with dimmers, occupancy and vacancy sensors, and wireless home automation devices.

Cooper Safety
Heightened concern for security and fire safety has created a residential market in Europe for Cooper Safety's security and fire-detection products.

Cooper Lighting
Recessed downlighting fixtures from Cooper Lighting are a mainstay of most modern homes.

Cooper Bussmann
FRN-R_ID Indicating Class RK5 fuses offer homeowners superior protection and indication to find the open fuse fast.

UTILITY

Electric utilities, ranging from large publicly traded companies to local co-ops, use Cooper products to distribute electricity safely, efficiently and reliably to their customers.

Cooper Crouse-Hinds
Cooper Crouse-Hinds products have many utility applications, including LED obstruction lighting to mark towers that may represent hazards to air navigation.

Cooper Bussmann
E-Rated medium voltage fuses help protect utility voltage switches and metal-enclosed switchgear.

Cooper B-Line
A broad range of Cooper B-line supports are used in power generation, transmission and distribution, including meter sockets and solar PV ground mount systems.

Cooper Power Systems
Cooper Power Systems NOVA 3-phase reclosers provide superior solid insulation, are maintenance-free and ensure environmentally safe operation.

Cooper Lighting
Area, street and roadway lighting all provide excellent optical performance for utility customers.

Cooper Wiring Devices
Commonly used for underground and overhead utility cable installation, Arrow Hart's pulling grips ease cable through bends and rough surfaces.

COOPER B-Line

Cooper B-Line is a leading manufacturer of quality support systems and enclosures for the electrical, mechanical and communications industries.

Top Product Offerings

- Electrical & Communication Wire Management
- Mechanical Support Systems
- Electrical & Electronic Enclosures

Key Product Innovations

- Total Ruff-IN
- Heavy Duty Expansion Splice Plate
- Dura-Blok

Product Brands

Access, B-Line, Cent-R-Rail, Dura-Clean, Dura-Blok, F.A.S.T, Flextray, GripStrut, Premier, RCM+, Redi-Rail, Total Ruff-IN, V-Line

COOPER Crouse-Hinds

Cooper Crouse-Hinds integrates a comprehensive line of electrical and instrumentation products with expert support, industry insights and local availability to enhance safety and productivity in the most demanding industrial and commercial environments worldwide.

Top Product Offerings

- Industrial and Hazardous Electrical Products
- Process Control Instrumentation and Protection
- Commercial Electrical Products

Key Product Innovations

- Champ VMV LED Cl. I, Div. 2 Luminaires
- Solar Power Modules and Combiner Boxes
- PRE-formance Pre-Fabricated Products

Product Brands

Arktite, CEAG, Champ, Condulet, Crouse-Hinds, Hazard•Gard, MTL Instruments, Myers, Nortem, Pauluhn, PowerPlus, PRE-formance, Space-saver, ZoneMaster

COOPER Bussmann

Cooper Bussmann, the industry leader in critical circuit protection, is committed to the development and manufacturing of innovative products and solutions, including engineering, training and testing services.

Top Product Offerings

- Quik-Spec Coordination Panelboard
- Compact Circuit Protector (CCP)
- Solar Combiner Box & Components

Key Product Innovations

- Fuse Circuit Protection Products
- Quik-Spec Electrical Gear (Panelboards, Disconnects & Switches)
- Alternative Energy Products & Solutions

Product Brands

Cooper Bussmann, Buss, Coiltronics, CUBEFuse, Edison, ELPRO, Fusetron, Low-Peak, OMNEX, PowerStor, Quik-Spec, SurePower

COOPER Lighting

Cooper Lighting is the leading provider of innovative, high quality interior and exterior lighting fixtures and related products to worldwide commercial, industrial, retail, institutional, residential, and utility markets. Cooper Lighting offers an extensive portfolio of products from industry leading brands that are founded on new energy-effective technologies that bring value to its customers.

Top Product Offerings

- Recessed Downlighting, Track & Surface Lighting
- Fluorescent and Exit & Emergency Lighting
- Outdoor Area, Site, Security, Flood and Landscape Lighting

Key Product Innovations

- Halo LED ENERGY STAR® Recessed Downlighting
- Outdoor Lighting LED LightBar AccuLED Optics
- Greengate NeoSwitch Wall Switch Occupancy Sensors

Product Brands

Ametrix, AtLite, Corelite, Fail-Safe, Greengate, Halo, iLight, iLumin, Invue, io, Iris, Lumark, Lumiere, McGraw-Edison, Metalux, MWS, Neo-Ray, PDS, Portfolio, Regent, RSA, Shaper, Streetworks, Sure-Lites, Zero 88

COOPER Power Systems

Cooper Power Systems engineers and manufactures medium- and high-voltage electrical equipment, components and systems that deliver reliable electric power to homes, industries, businesses, and institutions worldwide.

Top Product Offerings

Automation and Communication Solutions
Connectors and Components
Transformers

Key Product Innovations

Automatic Meter Readers
Smart Sensors
Distribution Engineering Analysis Software

Product Brands

Cannon Technologies, Cybectec, CYME, Edison, Envirotran, Envirotemp FR3 Fluid, Kearney, Kyle, NOVA, M-Force, MagneX, McGraw-Edison, UltraSIL, VariSTAR, Yukon

COOPER Wiring Devices

Cooper Wiring Devices is committed to providing reliable products that increase productivity, energy efficiency and safety at work, on the job-site and in the home.

Top Product Offerings

Arrow Hart Commercial & Industrial
CORE Controls
Cooper Interconnect

Key Product Innovations

ArrowLink Modular Wiring Devices
REPEL Devices
Cooper Interconnect Cam-Lok

Product Brands

Arrow Hart, ArrowLink, ASPIRE, ASPIRE RF, Auto Grip, Breech-Lok, Burton, Cam-Lok, CORE Controls, Hart-Lock, Interconnect, LynxPOWER, MediaSync, Quik-Loc, RhinoBox, REPEL, Posi-Lok, Power-Lock, QuickGrip, Safety Grip, ShockSentry, Shorepower, Snap-Lock, SOFTPower, SurgeBloc, Thorkom, Wing-Lok, X-Switch

COOPER Safety

Cooper Safety is a leading manufacturer of emergency lighting, security, fire detection, and notification systems, also offering a vast array of lighting fixtures and electrical installation materials.

Top Product Offerings

Emergency Lighting
Mass Notification Systems
Fire Detection and Security Systems

Key Product Innovations

LED-based Emergency Luminaires

EASE OF DOING BUSINESS

When you do business with Cooper, you have access to business tools and innovative technology to help reduce transaction costs and maximize profitability. An optimized supply chain can be achieved through an efficient electronic flow of order information, accurate inventory management and easy access to real-time information.

ELECTRONIC DATA INTERCHANGE

The backbone of an efficient supply chain is an optimized electronic flow of business transactions. Electronic Data Interchange (EDI) can be utilized for product ordering, helping to reduce the amount of paper used in the ordering process and eliminating errors from manual entry. Utilizing EDI to manage order data electronically reduces the transaction cost and increases the speed of the order cycle.

For more info, contact your local Cooper representative.

VENDOR MANAGED INVENTORY

Cooper also offers Vendor Managed Inventory (VMI) support, so customers can take advantage of automated replenishment. Inventory management is a crucial element of profitability and VMI helps reduce the amount of inventory needed on-hand by enabling just-in-time orders as well as minimizing stock-out potential. Most importantly, forecasting becomes centralized and the supply chain is shortened by keeping the right amount of products in stock.

For more info, contact your local Cooper representative.

REAL-TIME INFORMATION

Access the information you need, when you need it with Cooper Customer Center (C³). C³ is an easy-to-use web portal that provides real-time product availability, net pricing, order status, tracking, and more. It's simple, fast, and accurate; designed to save you time and help you make informed business decisions that drive revenue.

Visit www.cooperC3.com today for more information.

STATE-OF-THE-ART TRAINING

COOPER TECHNOLOGY CENTER

With new products and innovative technologies hitting the market on an almost daily basis, education and training has never been more crucial. Cooper Industries now offers world-class industrial training at the Cooper Technology Center (CTC) in Houston, Texas.

The exciting new 35,000 sq. ft. facility represents a manifestation of global trends within the industrial space. The CTC is dedicated to the ongoing training and education of end-users, distributors, engineers, and procurement professionals.

This state-of-the-art training facility features an auditorium, executive conference room and multiple training rooms designed to help facilitate industry-specific education and hands-on demonstration of a vast array of the products and solutions offered by Cooper.

Among the center's most notable features is a full-scale mock refinery which includes over 250 of Cooper's industrial offerings installed as they would appear in an operational setting. The CTC features an array of contributions from the company's seven diverse divisions, which each bring an undeniable amount of quality and innovation to the electrical space.

With hands-on classroom settings, a wide range of industrial curriculum and convenient access to Cooper's vast expertise and global product offering, the Cooper Technology Center provides unparalleled opportunities to receive vital training and education from a proven industry leader.
